BUSINESS INTELLIGENCE LEAD

JOB DESCRIPTION

The successful candidate will join the Regional team to provide deployment and support of various Business Intelligence tools based on Microsoft Platform, Azure and Power BI

KEY RESPONSIBILITIES

Responsibilities:

- *Focus on information/data quality by establishing data standards including common vocabulary, naming conventions, and ETL or ELT rules*
- *Develop, implement and maintain a strategy for increasing adoption of BI practices across the company to help build a data-driven culture at all levels*
- *Evangelize BI capabilities among many business units and determine strategies for continuous improvement of the overall BI platform*
- *Perform data migration and authentication settings*
- *Perform data analysis, translate user requirements, design and build business reports*
- *Experience in SQL Server Integration Services (SSIS) and SQL Server Reporting Services (SSRS) with good knowledge on SQL Server Analysis Services (SSAS)*
- *Experience in report writing using SQL Server Reporting Services (SSRS) and creating various types of reports like drill down, Parameterized, Cascading, Conditional, Table, Matrix, Chart and Sub Reports*
- *Experience in developing, monitoring, extracting and transforming data using DTS/SSIS, Import Export Wizard, and Bulk Insert*
- *Experience in High Level Design of ETL DTS Packages & SSIS Packages for integrating data using OLE DB connection from heterogeneous sources like (Excel, CSV, Oracle, flat file, Text Format Data) by using multiple transformations provided by SSIS such as Data Conversion, Conditional Split, Bulk Insert, Merge and union all*
- *Assist in change management*
- *Review, prepare and update necessary documentation (procedure/manual)*
- *Solve, track and report issues by communicating with Key-users and end user*
- *Provide training and support to Key-users, and end users (if necessary)*
- *Support on various regional projects*
- *Experience in Power BI is a plus*

Your Profile
Requirements:

- *Degree holder preferably in Business Information System, Computer Science or related disciplines;*
- *Minimum 3 years of implementation and support experience in Business Intelligence applications and managing report development;*
- *Experience on BI Microsoft Platform development and support would be an advantage;*

- *Mature, self-initiated and willing to face challenge;*
- *Good interpersonal and communications skills;*
- *Good written and spoken English.*

You are offered

- *Career path development and on-going training*
- *Competitive salary package, annual salary review based on employee's performance and contribution.*
- *Year-end bonus, performance bonus and Project bonus based on company's salary policy*
- *Healthcare and incident insurance*

Other benefits: *Insurance, 13th salary, annual company trip, team building activities.*
